Python, and CSV Library

WORK EXPERIENCE

Web Developer

June 2022 – Present

UC Santa Cruz Admissions

- Used HTML, CSS, and [Drupal 8](#) to create new pages across the [domain](#).
- Designed email templates using [Slate](#) which was sent to thousands of prospective students.
- Worked with MySQL to create useful queries which filtered a list of individuals who were sent emails for major campus events.
- Uploaded and edited databases containing student information, campus majors, sub plans, departments, and more.
- Communicated progress on a frequent basis with a team of 8+ Admission officers, through slack, [Asana](#), and weekly meetings.

Skills Earned: HTML, CSS, Drupal, PHP, MySQL, Slate CRM, Asana, Database Management, and Adobe Photoshop.

Teacher

Nov 2020 – June 2021

TheCoderSchool

- Taught 5+ students a week, each with varying experience in coding.
- Created individual lessons and projects which would take an additional two hours a week to plan.
- Focused on lessons in Python, HTML, CSS, and Scratch.
- Worked using Microsoft Windows, macOS, and Linux.
- Gained familiarity with [Git](#) by committing code to work anywhere.

Skills Earned: Python, Scratch, Web Development, and Git.

Java Tutor

Sept 2017 – June 2021

New Haven Unified School District

- Accumulated over 200+ community service hours for tutoring 30+ students.
- Offered help for AP Computer Science.
- Taught remotely to students in [Independent Study](#).
- Helped teach and prep multiple students a day for quizzes and finals.

Skills Earned: Java, Data Structures, Computer Science Fundamentals, and Time Management.
